Fleetwood’s patented Power Platform begins with two 10-in. steel I-beams welded lengthwise to the chassis. From the beams, steel outriggers extend outward. Together, they create a basement for fluid tanks and storage while supporting the floor, walls and roof with a rigid metal frame. This complements the chassis to make it even stronger.

Holding tanks are positioned in the bottom center of the platform to enhance vehicle stability.

Platform design creates lots of storage area and supports the sturdy Vacu-Bonded® walls.

Vacu-Bond® Sidewall Construction

Setting The Standard In Motor Home Quality.
Fleetwood® prototypes are exposed to thousands of miles of durability testing. Those components that don’t survive are redesigned until they do. This sets our standard in safety and durability.

Fleetwood’s patented Power Platform supports the body with a rigid frame that reinforces the chassis to make it even stronger. This allows Fleetwood to offer triple and quad slide-outs.

For each outer wall, Fleetwood uses one seamless, solid piece of its exclusive Tuff-Coat® fiberglass composite. It resists UV rays, cracks and impacts. Our products look newer longer and that’s a big plus at resale time.

To assure a strong, weather-resistant structure, Fleetwood Vacu-bonds® all sidewalls, floors and ceilings to a durable aluminum or steel frame. The Vacu-bond® process is unmatched by many competitors.

Fleetwood sinks and shelves are designed to handle full-size kitchenware. Few competitors can say the same.

Drawings are for illustrative purpose only to highlight aspects of motor home construction. Actual motor home design depends on model and is subject to change.

**Liquids Weight Reference:**
- Water (gal) = (8.3 lbs/3.8 kgs)
- Fuel (gal) = (7.1 lbs/3.2 kgs)
- Propane (gal) = (4.2 lbs/1.9 kgs)

**Metric Conversion:** Multiply pounds x 0.453 to obtain kilograms. Multiply gallons x 3.785 to obtain liters.

### CHASSIS

**Frame:** Freightliner® XC-Series

**Transmission:** Allison® 3000 MH, 6-Speed w/Electronic Shifter

**Engine:** Cat® C7 330 HP

**Alternator Amps:** 160-Amp Delco

**Torque:** 860 lb-ft @ 1440 RPM

**Tires:** Goodyear® 275/70R 22.5H

1. **GVWR (Gross Vehicle Weight Rating)** is the maximum permissible weight of this fully loaded motor home. The GVWR is equal to or greater than the sum of the unloaded vehicle weight plus the cargo carrying capacity.

2. **GAWR (Gross Axle Weight Rating)** is the maximum permissible loaded weight a specific axle is designed to carry.

3. **Base Weight** is the estimated weight of the motor home without fuel, options, water, cargo or passengers.

4. **GCWR (Gross Combined Weight Rating)** is the value specified by the motor home manufacturer as the maximum allowable loaded weight of this motor home with its towed vehicle. Towing and braking capacities may be different. Refer to Fleetwood and chassis manufacturer’s manuals for complete information.

5. **Length** taken from front bumper to rear bumper (excludes accessories).

6. Excludes safety equipment and awnings.

7. Motor homes feature a body-width over 96" which will restrict your access to certain roads. Before purchasing, you should research any state and/or province road laws which may affect your usage.

8. Tank manufacturer’s listed water capacity (WC). Actual propane capacity is 80% of water listing as required by the safety code.

† The chassis manufacturer recommends the installation of a supplemental brake control system to activate the brakes on the vehicle or trailer you are towing. Hitch receiver ratings expressed are maximum for the hitch receiver installed and may require the purchase of additional equipment that is dependant on the weight of the towed load. Consult with hitch receiver manufacturer for further information.
