### **Notes**

Shocks are mounted lower to avoid front furnace vent

SL-15-30-1 is too weak, replaced with SL-15-50  
Plan to use the 60# strut, SL-13-60-1

Plan to use the 60# strut, SL-13-60-1

Plan to use the 60# strut, SL-13-60-1

SL-15-30-1 is too weak, replaced with SL-15-50

Struts on bed when we bought it were undersized and not factory struts.

Struts on bed when we bought it were undersized and not factory struts.

Price current as of April 12, 2014

Ordered two with Susan on May 24, 2011

[om](#)

Futuresales is a 40# or 60# strut

This was the factory strut. I replaced with a 50#.

Note: This one is a Stabilus Lift-O-Mat
